What to do next? Customize your Personal Page with a story about why you are raising funds for this cause.

Welcome, Kelly to your MDA Lock-Up participant center. Thank you for going behind bars to help MDA!

- Step 1** Don't forget to use your own personal fundraising coach (aka parole officer), who is a professional MDA team member. They are another key to success, since they'll offer up tips and support.
- Step 2** Use ideas from the Jailbird Toolkit www.mda.org/lockup/toolkit — it has tons of ways to raise your bail, including ideas for your workplace, fun things to do with friends and neighbors.
- Step 3** [Send emails](#) and make phone calls asking your contacts to make a donation toward your bail.
- Step 4** Start fundraising with Facebook today! Add your [MDA Facebook application](#) to easily extend your fundraising efforts to your network of friends on Facebook. You'll be able to send and schedule Newsfeeds, update your profile picture to the MDA Lock-Up logo, and letting your friends support your efforts with just one click away! Get started now.

How do I install Boundless Fundraising?™

INFO SHEET

What happens after I click the install button?

You will be prompted with two screens:

Click the button circled in red for both. Now your application is installed and ready to use!
